

Three Generations Moving Mission Statement

To provide top tier residential and commercial moving services. There is a need in our society to have a fair priced moving company that can meet the specific needs of the individual clients instead of forcing the client to fit into a “cookie cutter” mold of what a company can or can’t do.

Three Generations Movers goal is to achieve and maintain 100% client satisfaction with our services, employees, and business practices. We will achieve this by listening to our clients’ needs and customizing their experience to fit those needs. Things can change at a moment’s notice. It is our job to ensure we react in a positive manner so the client has the most pleasurable experience possible. Moving is stressful.....we are here to alleviate that stress for the client by providing Friendly, Professional, Worry-Free Services.

In addition, Three Generation believes in hiring highly trainable employees with the natural ability to excel in this profession. As Three Generations grows we believe in offering the employees a chance to grow. We achieve this by (*but not limited to*) advancement through promotions and leadership roles. We will be soliciting employee’s feedback on their work environment and experiences during their tenure of employment. Our strength comes from our employees’ loyalty, hardworking, and no excuses making demeanor.

We learn, grow, and excel together.

Mr. Jamie E. Loneia

Founder / Majority and Managing Partner

Three Generations Moving and Hauling, LLC.
